High Solids Pre-Catalyzed Clear M102-0320 Matte 20 Sheen M102-0335 Satin 35 Sheen

Mohawk High Solids Pre-Catalyzed Clear lacquer has the durability and adhesion of our traditional pre-catalyzed aerosols that eliminates the need to mix bulk finishes for your small refinishing and restoration jobs.

- ✓ *High solids*
- ✓ *Fast build*
- ✓ *Superior flow-out*
- ✓ *Outstanding adhesion*
- ✓ *Excellent durability*

Product Tips: Do not use the High Solids Pre-Catalyzed Clear aerosol exactly like any other clear aerosols. When using this new aerosol do the following:

- Make your passes slightly quicker than normal
- Hold the can further away from the target than normal

As you use the new High Solids Pre-Catalyzed Clear aerosols you will develop your own technique but, in the beginning, follow these simple suggestions.
